

To the FCC Board

I would like to put in a good word for the XM Radio. I am a cross country driver and I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides me variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I'm are permitted to hear . I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we xmers demand and deserve. XM Radio has been a lifesaver for me when I need to get weather and traffic reports in the states and cities I enter. The weather stations have no vulgar or degrading information on them.
Thank you for your time in hearing our voices expressed in this situation.
